

Safe bet for shopping

Project: The Dunes Shopping Centre

Sector: Retail

Solution Design

Supply & Installation

The height of safety

The Dunes Shopping Centre in Melbourne is a multi-tenancy site that required a customised roof access system to allow for future maintenance. With over six years' experience in designing and installing safe roof access systems for shopping centres throughout Australia and a track record for completing complex projects for the head contractor, Anchor Safe was chosen as the preferred supplier.

and investigation. Our comprehensive design documentation, combined with our proven expertise gave our clients the confidence to move ahead. Our roof access system was designed and installed to suit the client's access and maintenance needs and will be maintained and recertified by Anchor Safe as required. approved solution.
